

Project Design Phase-1

Solution Architecture

Team ID	PNT2022TMID52316
Project Name	SIGNS WITH SMART CONNECTIVITY FOR BETTER ROAD SAFETY

Solution Architecture:

Solution architecture is a complex process - with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure , characteristics , behavior , and other aspects of the software to project stakeholders.
- Define features , development phases , and solution requirements.
- Provide specifications according to which the solution is defined , managed, and delivered.

Proposed Solution
